

105 KEY SHORT TRAVEL KEYBOARD

with TOUCHPAD

The KSTP105 keyboard uses short travel switches with low pressure and positive tactile feedback for convenient fast data entry. The keyboard features an integrated touchpad. The IP67 waterproof level of the panel mount version is obtained thanks to the inherent sealing capabilities of its polyester front and of the touchpad technology with solid state sensing. The fields of industrial applications are very wide; indoor- and outdoor where a higher input speed is required while maintaining outstanding sealing characteristics.

PANEL MOUNT (IP67 frontal)

Ideal for front panel mounting by means of fourteen M4-threaded studs. The sealing into the customers' panel is assured by an IP67 grade silicone sponge seal which is part of the supply.

KSTP105Fxyyy
dim : 432 x 152 x 26 mm
weight : 1,3 kg

ENCLOSED (IP54)

KSTP105Sxyyy
dim : 475 x 215 x 57 mm
weight : 2,9 kg

• CONNECTIVITY

The keyboard has 1,6 meter shielded cable(s) ended by a PS/2 or USB type A plug. Use the drivers standardly available in your operating system.

** Due to the increasing differences of PS/2 mouse port specifications of the various PC manufacturers, we do recommend that this unit should be tested on the final PC configuration and operating system prior to installing it in series.*
